

# Understand the new standard, EN ISO 20345:2022

# MASCOT® FOOTWEAR

MASCOT's safety footwear is certified in accordance with the European standard for safety footwear, EN ISO 20345.

But what does it actually mean for safety footwear to hold this certification  ?  
The certification is comprised of both a safety class and a number of other properties.

Certification = safety class + other properties

E.g. : Certification =  + 

Below is an overview of the safety classes and what the individual safety classes tell you. MASCOT primarily offers safety footwear in the safety classes S1PL, S1PS, S3S and S7S.

Safety classes	SB	S1	S1P	S1PL	S1PS	S2	S3	S3L	S3S	S4*	S5*	S5L*	S5S*	S6	S7	S7L	S7S

Outsole with cleats							✓	✓	✓		✓	✓	✓		✓	✓	✓
Waterproof (WR)														✓	✓	✓	✓

\*Class II: Fully moulded boots in PVC, PU or EVA that are waterproof.

## Other properties:

Beyond the safety class, other requirements can also be placed on safety footwear based on a general purpose or working conditions – and for this reason, the certification can also cover other properties beyond the actual safety class itself. These other properties can include the following:

<b>E</b> Shock-absorbing	<b>A</b> Antistatic	<b>P</b> Metal nail protection (Ø=4,5mm)	<b>PL</b> Textile nail protection (Ø=4,5mm)	<b>PS</b> Textile nail protection (Ø=3mm)	<b>WPA</b> Water repellent and breathable	<b>WR</b> Waterproof	<b>FO</b> Oil and fuel resistant sole	<b>HRO</b> Heat-resistant outsole compound	<b>HI</b> Heat insulation
<b>CI</b> Cold insulation	<b>M</b> Metatarsal protection	<b>AN</b> Ankle protection	<b>CR</b> Cut-resistant upper	<b>C</b> Partially conductive	<b>LG</b> Ladder grip	<b>SC</b> Scuff cap abrasion	<b>SR</b> Slip resistant
