ULTIMATE STRETCH.Twill.

Industrial care category C2

CLIMASCOT® Lightweight Insulation

- Windproof and waterproof, breathable membrane with taped seams to keep you dry. The membrane keeps wind and water out while allowing moisture to escape from the inside.
- CLIMASCOT® lining to keep you warm. The lightweight, soft lining provides effective insulation without adding bulk.
- ULTIMATE STRETCH for freedom of movement. Four-way stretch follows your movements in all directions—from reaching out with your arms to working on your knees.
- Functional details such as magnet fastenings on the sleeves and a detachable hood with an easy-release mechanism, so you can quickly and easily remove the hood.
- Reflective tapes down the sleeves and on the back, so you’re visible in the dark and in bad weather.
