E Shock-absorbing	A Antistatic	PS Textile nail protection (Ø=3mm)	WR Waterproof	FO Oil and fuel resistant sole	HRO Heat-resistant outsole compound
HI Heat insulation	CI Cold insulation	LG Ladder grip	SC Scuff cap abrasion	SR Slip resistant	

- Extremely durable safety boots for those who need to perform at their best in extreme environments.
- The boot is cold and heat insulating, waterproof and breathable, so you never have to let the weather stop you.
- Flame-retardant upper protects your feet from flames and sparks.
- Slip resistant and heat resistant (up to 300°C contact heat) outsole with ladder grip ensures you have a good footing whether you're standing on a slippery surface or on a ladder.
- BOA® Fit System on the side of the boot for quick and easy adjustments.

Technical info

Opens and fastens with BOA® Fit System, which consists of a rotational dial, lace and guides. Uppers made of flame retardant material. Composite toe cap. MASCOLAYER® textile nail protection. Moulded TPU scuff cap. Stabilising multi-functional shank with integrated absorbing cushioning. Midsole made with PU. Rubber outsole with rubber friction inserts. Removable insoles, anti-static and durable. Shock absorbing insole. Absorbs and removes moisture. Sole is oil and petrol resistant. Heat resistant sole up to 300°C contact heat. Ladder grip. Thinsulate™ insulation. Waterproof membrane made with MASCOTEX®. Water-repellent and breathable outer fabric. Suitable for working on the knees.

MASCOTEX® MASCOLAYER®  INSULATION
